WORK EXPERIENCE

Software Developer, Think Health Diagnostics **Jan 2023 - Jul 2024**

- Developed and maintained responsive web applications using React.js, improving page load speed by 25% and enhancing user engagement by 15%.
- Collaborated with back-end developers to integrate RESTful APIs, improving data retrieval efficiency by 18%.
- Integrated Agora API to enable real-time video calling, significantly enhancing communication between doctors and patients, resulting in a 40% increase in video consultations.
- Streamlined the deployment process, achieving a 30% reduction in deployment errors.
- Developed and maintained mobile applications using React Native for Android platforms, adhering to industry best practices and coding standards.
- Conducted knowledge transfer (KT) sessions for new joiners, mentoring 10+ junior developers, which improved onboarding efficiency and reduced ramp-up time from 3 months to 1.5 months.

Member of Technical Staff, Medha HR **Sept 2021 - Dec 2022**

- Built and launched a job portal with advanced search and filtering features, reducing job search time for users by 20%.
- Enhanced candidate profile page for a major recruiting platform, improving user experience and increasing profile completion rates by 35%.
- Led the integration of Stripe payment systems into a job portal, enabling seamless transactions for job listings and premium memberships.
- Participated in code reviews, debugging, and testing to ensure high-quality deliverables.

EDUCATION

Bachelor of Engineering **Aug 2016 - May 2020**

- K.L.N College of Information Technology
- Major in Electronics and Communication Engineering.
